at Fortieth Street

MY ASSISTANT GARDENER

NOTE OF GREETING

NOT a souvenir of foreign travel. Not a study of strange lands. Simply the quiet of a Connecticut hillside, where many birds have come to nest, and oaks and cedars, march in mixed procession, and group themselves about the boulders, where lichen tints the grey, and mosses blend their various shades—a place in which to live—to work—and play.

F. L. M.
