

COMPARABLY THE BEST BOOK EVER PUBLISHED ON

# Indoor Gardening

Says F. F. Rockwell  
because . . .

this new book is written by the highest authority on the subject in the country, Montague Free, staff horticulturist of The Home Garden and formerly horticulturist of the famous Brooklyn Botanic Garden.

**BECAUSE** it offers the most complete treatment of the subject ever published—selection of plants for all conditions, complete culture, care, and propagation.

**BECAUSE** it discusses the largest number of house plants ever described in one book—a careful selection of those suitable for amateur house culture.

**BECAUSE** it is the most lavishly illustrated book on indoor gardening with 17 pages of full-color plates and 100 other illustrations from photographs and drawings.

## Montague Free's "ALL ABOUT HOUSE PLANTS"

**T**HIS engrossing new book will come as a delightful revelation. It tells you all about over 1,000 species and varieties suitable for indoor growing by the amateur. Among them are many of the most interesting and beautiful members of the plant kingdom. Their natural habitats range from the deserts to the rain-forests; from the arctic to the equator. Their forms, blooms, and habit of growth represent the most amazing variety imaginable. Montague Free's new book opens a new world of sheer fascination to every gardener.

Did you know that there are 21 types of Orchids you can grow right in your own home, 78 genera of cacti with the most surprising shades and the most exquisite flowers, 20 strikingly showy members of the Pineapple family, more than a score of species of Begonias, over 1,000 species and varieties in all to choose from? In this delightful new book, America's top-ranking authority tells you how to know and grow them.

## The Amateur's Guide to Successful Indoor Culture

**T**HE most uninformed beginner will have no difficulty understanding the clear, simple, complete explanations and the most advanced amateur will find much that will add greatly to his knowledge. So thorough and comprehensive is the book that it sets a new standard of practical value and authority in the field of indoor gardening.

Here is everything you need to know about the selection of plants including recommendations for special conditions; complete details of culture for all types; full instructions for various methods of propagation. In addition there is a wealth of fascinating information on how to make your own propagating case; making and planting a Wardian case, or terrarium; making miniature gardens; growing aquatics indoors; and many other engrossing subjects.

Cultural and propagating operations are clearly illustrated. Photographs in series show, step by step, how to do many interesting things.

## Wealth of Beautiful Illustrations

FIFTEEN pages of exquisite full-color plates, fifty halftones and fifty pen-and-ink drawings, all newly made especially for this book. In addition to showing one hundred individual plants, the illustrations portray many of the operations such as potting, propagation, miniature gardens, making terrariums, arranging window gardens, etc. Never before has such a complete collection of pictures on indoor gardening been published. If you love plants, you will find this book
